IN REPLY REFER TO: B-115398.33

October 26, 1979

To the President of the Senate and the  
Speaker of the House of Representatives

On September 28, 1979, the [President's fourteenth special message for fiscal year 1979 was transmitted to the Congress pursuant to the Impoundment Control Act] of 1974. The special message proposed a revision to a previously transmitted deferral involving funds appropriated to the Department of Transportation. Specifically, the proposed revision (D79-19A) increases by approximately \$5 million the amount deferred from the Federal Aviation Administration's civil supersonic aircraft development and termination accounts.

We conclude that the information provided in the fourteenth special message is correct and the actions being proposed have been clearly and accurately stated.
